1. STUDENT FEEDBACK ABOUT THE QUALITY OF TEACHER

1.9) What aspects of this teacher's approach best helped your learning?

- An informed and passionate lecturer. Chris McGrath's enthusiasm has been refreshing as a post graduate student. He has helped rekindle my passion and enthusiasm for environmental management through his comprehensive and entertaining delivery.
- Approachable and very enthusiastic about the course. I was always well informed about what is expected of me.
- As an external student, this has been an absolute standout unit. Chris is an excellent lecturer who engages, inspires and actually 'teaches'. Lectures were entertaining, though provoking and inspiring. They were presented in a logical clear manner and were always uploaded quickly in a variety of formats for easy access by external students.
It was clear that Chris had a good rapport with the students. He took the time to read and respond to every external students' profile and often referred to students them by name during lecture discussions. Chris also took the time to personally Skype and discuss assignments with external students.
I looked forward to Chris's lectures each week to find out the 'next chapter' in the regulatory story. Thanks very much.
- Chris is an excellent teacher who treats students with respect and makes the effort to involve external students as though we are part of the regular class.
Such a small thing but...thank you for pausing your lecture recording during the mid-class break - this is very appreciated by this time-poor external student!
- Dedication towards students overall development
- Dr. McGrath is very friendly. He attempted to answer every question and enquiry from students. This is very helpful for external student.
- I am an external student so really appreciated the quick response to emails. Chris was very thorough and I felt he took a genuine interest in my progress.
- Personable, explained things in layman's terms :-), very structured approach (which I thrive in, so thank you :-)), doesn't forget the externals in lectures (thank you :-))
- The fact that the course was presented in chronological order and well structured. Dr McGrath was clear passionate about the course content which made what could have been extremely boring (e.g. law and policy) interesting.
- experience, passion and empathy for students.

1.10) What would you have liked this teacher to have done differently?

- I can't think of anything!
- I would have like more feedback earlier on my major essay. It was good to have a small assignment (5% of overall mark) early on but this was not really a meaningful assessment item.
- Nothing
- Nothing!
