1.10) What improvements would you suggest?

■ Hi Chris,

this suggestion is only small, as generally the course is pretty awesome, but perhaps ensuring data on slides is up to date (e.g. UNFCCC lecture had quotes from old IPCC report).

Thanks again.

■ I can't think of any!

■ None of note.

■ Nothing, I can think off!

■ Perhaps less going off on a tangent. But that is also what made the course interesting.

■ The last exam seems to require a lot writing, so maybe the duration time of the exam can be extended to three hours.
