Question 1.10

Specify the fax number of the nominated applicant.

Question 1.11

Specify the email address of the nominated applicant.

Question 2

A mining lease can be applied for if the applicant (or one of the applicants) is the holder of a current pre-requisite tenure.

Question 2.1-2.5

Tick which is the pre-requisite tenure for the mining lease application either a prospecting permit, exploration permit for mineral or coal, mineral development licence or a mining claim or mining lease (being conditionally surrendered) and provide the number and expiry date of the tenure.

A conditional surrender may be for the whole or part of the area in favour of either whole or part of a new application.

Question 2.6

Identify whether the land is situated within an exploration permit, geothermal exploration permit or mineral development licence (either granted or an application) that is not held by you.

If so, you must obtain the earlier applicant's or holders written views on your application and lodge those views with the Mining Registrar. (Refer to sections 248 and 249 of the *Mineral Resources Act 1989*).

2. PRE-REQUISITE TENURE DETAILS

What pre-requisite tenure do you hold over this area?

GUIDE FOR APPLICANTS

Question 2.7 to 2.9

If yes, provide number and expiry date of relevant tenure not held by you.

Question 3

Before you apply for a mining lease you must mark out the boundary of the land, even if the surface of the land is not going to be included in your application.

Once marked out you have five business days in which to lodge your application.

Question 3.1-3.2

Specify the date and time the land the subject of the mining lease was marked out.

Question 3.3

There is no restriction on the term of a mining lease. However, when you apply for a lease you must justify the term you are seeking. A mining lease cannot be for a term longer than the period for which compensation has been agreed or decided. For example, if you agree to compensation for a five-year period then the lease cannot exceed five years.

Question 3.4

Provide detailed reasons for the length of term sought.

Question 3.5 & 3.6

State the area of land being applied for. There are no restrictions on the area and shape of the land, which can be granted under a mining lease (other than those imposed under certain Restricted Areas). However, you must justify the area and shape when you make your application.

Question 3.7

State the general locality of the application, e.g. 15km SE of Mount Isa.

Question 3.8

Insert the name of the Mining Lease.

Question 3.9

Insert the details of the Local Government. This refers to either the City or Shire Council responsible for the local government area(s) in which the land is situated.

Question 3.10

Specify which minerals are sought and/or the purpose for the mining lease. Do not use symbols. Do not include minerals that are not specified in the pre-requisite tenure.

Please Note: the Government's policy is that it will not grant mining tenements for the purpose of mining uranium in Queensland, nor will it permit the treatment or processing of uranium within the State.

3. APPLICATION DETAILS

------	------------------------------	--

GUIDE FOR APPLICANTS

NOTE: Coal mining leases are subject to additional provisions imposed under Part 7AA of the *Mineral Resources Act 1989*.

Question 3.11

Mining leases may be granted for purposes other than mining of minerals (i.e. for the purposes of carrying out activities associated with mining such as plant site, camp or tailings dam).

Question 4

The *Mineral Resources Act 1989* prescribes certain types of land as "restricted land". This land is only available if the owner of the land where the relevant permanent building (Category A), or feature (Category B) is situated, consents in writing to your application. If consents are not lodged, such areas will automatically be excluded from the surface area of your mining lease.

Restricted Land (category A)
Means land within 100m laterally of a permanent building used –

- (a) mainly as accommodation or for business purposes; or
- (b) for community, sporting or recreational purposes or as a place of worship.

Restricted Land (category B)
Means land within 50m laterally of any of the following features–

- (a) a principal stockyard;
- (b) a bore or artesian well;
- (c) a dam;
- (d) another artificial water storage connected to a water supply; or
- (e) a cemetery or burial place.

Question 4.2

Specify the improvements to the land which is being applied in the mining lease. The types of improvements and prescribed distances are defined in the *Mineral Resources Act 1989*.

Question 5.1

Indicate whether the mining lease is over land that is a reserve as defined in the Schedule - Dictionary of the *Mineral Resources Act 1989*.

Question 5.2

If you are unable to obtain the written views of the owner of the reserve despite efforts to do so, the Land Court of Queensland has the power to make a recommendation to the Minister as to whether the Governor in Council should consent to the grant of the mining lease over the surface of the reserve subject of certain conditions.

Question 5.3

Specify what attempts have been made to obtain consent.

4. RESTRICTED LAND

Are there any permanent buildings or relevant features within the boundaries of the land applied for or within the prescribed distances laterally of the boundaries? _

4.1	<input checked="" type="checkbox"/> YES (go to Q 4.2)	<input type="checkbox"/> NO (go to Q 5.1)
-----	---	---

What are those permanent buildings or relevant fixtures?

4.2	SEE ATTACHED MAP
-----	------------------

Do you have the written consent of the owner(s) of the land containing those permanent buildings or relevant fixtures to the land being applied for in the mining lease?

4.3	<input checked="" type="checkbox"/> YES (attach copy)	<input checked="" type="checkbox"/> NO (see below)
-----	---	--

Please note: Consent must be lodged with the Mining Registrar prior to close of objections.

5. RESERVE LAND

Is the application over land the surface of a reserve?

5.1	<input checked="" type="checkbox"/> YES (go to Q 5.2)	<input type="checkbox"/> NO (go to Q 6.1)
-----	---	---

Do you have written consent of the owner(s) of the reserve?

5.2	<input type="checkbox"/> YES (go to Q 6.1)	<input checked="" type="checkbox"/> NO (go to Q 5.3)
-----	--	--

If yes – please attach a copy of consent.

If NO, what action has been taken to obtain such written consent?

5.3	CONSENT IS TO BE SOUGHT FROM THE LOCAL AUTHORITY TO INCLUDE THE ROAD RESERVES IN THE AREA OF THE ML.
-----	--

Please note: Consent must be lodged with the Mining Registrar prior to close of objections.

GUIDE FOR APPLICANTS

Question 7.1

If the applicant is not the owner of the land over which the surface of the application is made, then compensation must be entered into prior to grant either by written agreement or determined by the Land Court of Queensland of Queensland. Access land is also subject to the compensation requirements of the Act.

Any compensation agreement must be signed by all parties, stamped by the Office of State Revenue and filed with the Mining Registrar.

Question 7.2

Compensation is not required if the background land tenure is "Unallocated State Land" or is owned by the applicant. If the applicant is the owner, proof of ownership is required to be lodged with the application.

Question 8.1

Fully describe the reference/start point of the land so that it can be accurately located. Either by a survey mark or other fixed and well defined point. Preferably a GPS point.

GPS Points must be in latitude and longitude on GDA94 Datum or MGA94 (Easting, Northing, Zone)

Question 8.2

Indicate which corner the datum post is located, e.g. NW corner.

Question 8.3

Enter description of the reference start point. In describing the reference point, all bearings are to be magnetic. If there is insufficient space, please attach a list.

Question 8.4

Enter the compass bearing taken along the centreline of the reference/start point.

Question 8.5

Enter the distance, in metres, from the reference/start point on the compass bearing.

Question 8.6

The posts used to mark out the mining lease must have the applicant's initials along with the date of marking out. Indicate the initials and date marked on each post (Refer to section 241 of the *Mineral Resources Act 1989*).

GUIDE FOR APPLICANTS

Question 9

You must describe the boundaries of the mining lease by accurately measured distances and compass bearings. All bearings are to be magnetic and clockwise and the description should indicate any abutments, for example, a bearing of 90° 00' for a distance of 100 metres to and abutting the western boundary of ML 70045.

You must also include a sketch map, or other graphic representation acceptable to the Mining Registrar setting out the boundaries of the land being applied for and the land required as access. This map should also show any mining claims, mineral development licences, or mining leases (or applications for the grant of one of these) within the boundaries of the land being applied for

Question 9.1

Enter the compass bearing taken.

Question 9.2

Enter the distance, in metres, to the next post.

Question 9.3

Enter description, e.g. North West Corner... etc.

Questions 10.1 & 10.2

If there is existing mining tenure (or prior application for grant of mining tenure) wholly within this application, or if there is an area that you do not wish your application to cover you are required to complete Question 11.2.

GUIDE FOR APPLICANTS

Questions 10.3 to 10.6

If there is a mining claim, mineral development licence or mining lease or an application for one of these tenements already within the area you are applying for, then the datum post or commencement post of the mining claim, mineral development licence or mining lease (or applications) must be related to the commencement point of your mining lease application by accurately measured distances and compass bearings.

The Mining Registrar may accept alternative methods instead of measured distances and bearings where these are more accurate.

All bearings are to be magnetic and the description should indicate any abutments. For example, "at a bearing of 90° 00' for a distance of 100 metres to the...".

Please attach a separate list if insufficient space

Question 10.7 to 10.10

All bearings are to be magnetic and clockwise and the description should indicate any abutments, for example, "at a bearing of 90° 00' for a distance of 100 metres to the western boundary of ML 70045".

Please attach separate list if insufficient space.

Questions 11.1 to 11.3

Indicate if surface area is required, if so, state reasons why surface area is required and whether surface area is applied for over whole or part of the mining lease.

Question 11.8 to 11.11

It is not necessary to mark out the boundary of the surface area if part only of the surface is going to be included in your application. However, the boundary of the surface area must be described by measuring the distance on the ground and by taking compass bearings. The description must be related to a boundary post by accurately measured distances and compass bearings.

All bearings are to be magnetic and distances are to be in metres.

Please attach a separate list if insufficient space.

GUIDE FOR APPLICANTS

Question 13

Compliance with the native title provisions of the *Commonwealth Native Title Act 1993* is not necessary on land where native title is taken to have been extinguished (i.e. 'exclusive' land tenures).

However, if you wish to include in your application land that may be subject to native title (i.e. 'non-exclusive' land tenures), you must comply with the relevant native title procedure irrespective as to whether or not a native title claim has been lodged over the area.

Question 14.1

Enter the name of place where the application was signed, the day of the month, the month and the year when the form is signed.

Question 14.2

Insert full name of the applicant(s).

Question 14.3

Signature of applicant(s).

Question 14.5

Signature of Witness.

Execution of Documents by an Agent

If an agent or the holder of a power of attorney is signing a document, required to be lodged by an Act, on behalf of another, the agent or holder of the power of attorney must produce current, written evidence of their authority to act at the time of lodgement.

All of the holders of the tenure MUST execute the appointment of agent or the power of attorney for the appointment or power of attorney to be effective. A company signing an appointment of agent or power of attorney must do so in accordance with the corporation law and/or the articles of association of the company.

15. ACCOMPANIMENTS

15.1 The following must accompany this form:

Question 15.1

Tick the appropriate boxes to indicate compliance.

Question 15.2

Tick the appropriate boxes to indicate compliance.

An annual fee must accompany new applications for Level 1 or Level 2 mining projects.

Refer to the DERM's Website www.derm.qld.gov.au for prescribed/annual fee amounts and appropriate application forms.

Question 15.3

If the application is for the purpose of mining for coal or oil shale or a specific purpose (coal or oil shale), you must ensure the additional accompaniments are lodged with the application.

You must determine whether any part of the application area of your Mining Lease is within the tenure area of a pre-existing petroleum lease or authority to prospect.

Refer to section 7AA of the *Mineral Resources Act 1989*. If so, separate applications may need to be lodged.

Mining lease (coal) means a mining lease for coal, whether or not the lease specifies any other mineral to be mined, and whether or not the lease is for any additional purpose.

Mining lease (oil shale) means a mining lease for oil shale, whether or not the lease specifies any other mineral to be mined, and whether or not the lease is for any additional purpose.

Specific purpose mining lease (coal or oil shale) means a mining lease, other than a mining lease (coal or oil shale), granted under section 234(1)(b), if the purposes for which it is granted include a purpose that is associated with, arises from or promotes the activity of coal or oil shale mining.

Specific purpose mining lease (oil shale) means a mining lease, other than a mining lease (oil shale), granted under section 234(1)(b), if the purposes for which it is granted include a purpose that is associated with, arises from or promotes the activity of oil shale mining.

GUIDE FOR APPLICANTS

Question 15.4

You must determine whether any part of the application area of your Mining Lease is within the tenure area of a pre-existing GHG tenure.

Refer to section 7AAC of the *Mineral Resources Act 1989*.

GHG Act means *Greenhouse Gas Storage Act 2009*.

GHG Tenure means a GHG exploration permit (also known as a GHG permit) or a GHG injection and storage lease (also known as a GHG lease)

<p>A. If the application is within an area of an authority to prospect for petroleum and is being made jointly with, or with the consent of the authority to prospect holder, the following must be lodged:</p> <ul style="list-style-type: none"> o A Coal Seam Gas (CSG) Statement; o Other information that addresses the CSG assessment criteria; and o Written consent (if applicable) or 	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<p>B. If the application is within an area of an authority to prospect for petroleum and is being made other than jointly with, or with the consent of the authority to prospect holder, the following must be lodged:</p> <ul style="list-style-type: none"> o A Coal Seam Gas (CSG) Statement; o Other information that addresses the CSG assessment criteria; and o Written consent (if applicable) or 	<input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<p>C. If the application is within an area of a petroleum lease and is being made other than jointly with, or with the consent of the lease holder, the following must be lodged:</p> <ul style="list-style-type: none"> o A Coal Seam Gas (CSG) Statement or 	<input type="checkbox"/>

Dear Sir/Madam,

PROSPECTING PERMIT NO 74057

I wish to advise that your application for a prospecting permit has been granted for a period of three (3) months as outlined on the attached Permit and Conditions.

During the three (3) month period covered by the Permit, you or your authorised agent may enter upon the land for **the purposes marking out land** that may be the subject to an application for a mining claim/lease. Your entry onto the land is subject to your compliance with the attached conditions and Section 19 of the *Mineral Resources Act 1989*.

Please note that the Prospecting Permit has only been issued in respect of the parcel or parcels of land nominated in the application.

Yours faithfully

Shawn Brown
